

## **COURSE TITLE**

Storm Water Management: Storm Water Pollution Prevention Plan (SWPPP)

## **COURSE DURATION**

1 hour

## **OVERVIEW**

Proper storm water management is critical to ensure safe drinking water for all of us. In addition, the EPA can levee substantial monetary fines as well as criminal prosecution for violators of EPA storm water regulations. This course will discuss the environmental impacts of storm water runoff, the NPDES storm water program, and the elements of a storm water pollution prevention plan.

This training course has 7 learning modules with a 10-question exam.

## **PREREQUISITES**

No prior knowledge is required.

## **BEHAVIORAL OBJECTIVES**

After successfully completing this course, you will be able to:

- Identify pollutant sources that may affect the quality of stormwater discharges associated with manufacturing facilities and construction activity
- Select prevention strategies for stormwater pollution
- Recall the federal requirements for stormwater runoff for manufacturing facilities and construction sites
- List who is required to get NPDES permit coverage
- Name the required element in a Stormwater Pollution Prevention Plan
- Match the rules and responsibilities in a Stormwater Pollution Prevention Plan

## **COURSE OUTLINE**

- Introduction
- Basics of Stormwater Management
- NPDES Programs
- Stormwater Pollution Protection Plan
- Training
- Safe Work Practices
- Requirements and Responsibilities
- Summary

## **AVAILABILITY**

This course is offered online and is available 24 hours a day, 7 days a week, 365 days a year.

## **TRAINING METHODOLOGY & EVALUATION**

This course is self-paced online training. Review exercises and case studies reinforce the content, and students are evaluated with a multiple choice exam. Upon completion, students are prompted to submit a course evaluation.
